Understanding your options

Use the information below to help you decide what's right for you. You can read it on your own or give us a call to go over it together. We'll take as much time as you need to answer all your questions and help you make the right choice.

Your spouse can be either by marriage or someone you've been living with for at least one year and refer to as your spouse or partner in public.

Life insurance options

You have two options available to replace your workplace life insurance coverage, depending on your needs. If replacing your life insurance is a temporary need, we have a flexible, low-cost option called My Life Choice. If you have a need for long-term coverage or you'd prefer not to answer any health questions, you may prefer speaking with a Sun Life financial advisor to review your guaranteed conversion options. An advisor can also discuss other life insurance options to make sure you get the right coverage. Speaking with a financial services consultant is the best way to determine which option is right for you. Simply call us at **1-877-893-9893** from 8 a.m. to 8 p.m. ET, Monday to Friday, and we'll help you choose what's right for you.

Health insurance options

Choices critical illness insurance – for you, your spouse and your dependent children

When transferring your coverage, we use the start date from your workplace coverage for your new plan. It means that certain exclusions that normally apply to new plans, such as the moratorium period, will not restart. During the moratorium period, you are not eligible for a benefit payment if you're diagnosed with, or have signs or symptoms of, a covered condition. It continues for 90 days for benign brain tumour and cancer, and 1 year for Parkinson's disease. We'll also use the start date of your workplace coverage for the pre-existing condition exclusion.

You and your spouse must be age 18 to 69 (or 65 if that's the maximum under your former employer's plan).

You'll have the option to extend your children's Choices critical illness coverage to an adult policy when they no longer qualify as a dependent, subject to a maximum amount.

My Health Choice – for you, your spouse and your dependent children

We make it easy to keep health care and dental coverage for you and your family. If you're age 18 to 74, you can apply over the phone with one of our financial services consultants **within 60 days** of the date your group coverage ends.

There's no medical exam and you can get coverage for you, your spouse and your dependent children. As well, your dependent children can apply for their own My Health Choice coverage when they're no longer eligible under your plan. See page 8 for more details on eligible dependents.

If you're a Quebec resident, you must enrol for prescription drug coverage with RAMQ when you leave your workplace plan, unless you're eligible for group coverage elsewhere. My Health Choice doesn't take the place of a group health insurance plan providing prescription drug coverage and is second payer to comply with RAMQ. Visit ramq.gouv.qc.ca and select **Citizens > Prescription drug insurance** or call **1-800-561-9749** for more details.

**Best Doctors® –

insurance options**

We've highlighted the features of our My Health Choice plans below. Need more info to make a decision? You can request a sample My Health Choice policy by calling **1-877-893-9893**. We'll be happy to review the details with you.

To be eligible for the Standard with dental or Enhanced plans, you must have had dental coverage under your workplace plan or your retiree group plan.

The coverage maximums below are per insured and per calendar year unless otherwise stated. For maximums with a multi-year period (e.g. every two years), the period begins on the date you incur the first expense under that maximum. This coverage doesn't cover expenses paid for by government-sponsored health plans.

Eligible dependents include your children and your spouse's children (other than foster children) who aren't married and are under age 21. If your child is a full-time student in a recognized school, they're covered until the age of 25 as long as they are entirely dependent on you for financial support. As well, children who are physically or mentally incapable of self-support are covered as long as they became so while they were entirely dependent on you for financial support under one of the two same age eligibility requirements.
